

Global Unichip Corp.
Year 2022 Annual General Shareholders' Meeting Resolution

(This document is prepared in accordance with the Chinese version and is for reference only. In the event of any inconsistency between the English version and the Chinese version, the Chinese version shall prevail.)

1.Time : 9:30 a.m. Thursday, May 19, 2022

2.Place : 3rd Floor, No. 10, Li-Hsin 6th Road, Hsinchu Science Park , Hsinchu City

3.Attendance :

Total outstanding GUC shares : 134,011,911 shares

Total shares represented by shareholders present in person or by proxy: 111,074,011 shares

Percentage of shares held by shareholders present in person or by proxy: 82.88%

4.Chairman : F.C. Tseng, the Chairman of the Board of Directors

The aggregate shareholding of the shareholders present in person or by proxy constituted a quorum. The Chairman called the meeting to order.

5.Chairman's Address: Omitted.

6.Report Items

(1) To Report the Business of 2021 (Attachment 1) Proposed by the Board of Directors

(2) To report 2021 employees' profit sharing and directors' compensation Proposed by the Board of Directors

Explanation :

1. 2021 Employees' Cash Bonus is NT\$ 271,773,187; 2021 Employees' Compensation is NT\$ 271,773,187, Total NT\$ 543,546,374.

2. 2021 Directors' Remuneration is NT\$27,722,185.

(3) Audit Committee's review report Proposed by the Board of Directors

Explanation:

The Audit Committee's review report is attached hereto as Attachment 2

(4) To report corporate governance matters of 2021 Proposed by the Board of Directors

Explanation:

1. Communication report between the convener of the Audit Committee, the independent director members and the head of Internal Audit:

In the quarterly Audit Committee meeting, the head of Internal Audit regularly reports to the Audit Committee the implementation of the audit plan, important findings and the progress of previously suggested improvement items, interacting face-to-face with independent directors. The head of Internal Audit reports to and communicates with the independent directors every month via a written monthly report. The key

communications and interactions between the independent directors and the head of Internal Audit in the Audit Committee meeting are recorded in the meeting minutes. In addition, communication among independent directors, or between the head of Internal Audit and the members of the Audit Committee on audit and other matters related to the responsibilities of the Audit Committee will also be conducted via email. The convener of the Audit Committee maintains a good communication channel with independent directors and the head of Internal Audit.

2. The convener of the Compensation Committee reports the compensation received by the directors, including the compensation policy, the content and amount of individual compensation and their correlation with the performance evaluation results:
 - (1) The compensation, remuneration and travel expenses of the Company's directors shall be provided in accordance with the "Regulations on the Directors' Compensation, Remuneration and Travel Expenses" unless otherwise stipulated by laws and regulations and the Company's Articles of Incorporation. The total compensation of the directors shall be regulated in accordance with Article 26 of the Company's Articles of Incorporation, and shall not exceed 2% of the Company's profit for the current year. The compensation is paid based on the earnings distribution approved by the shareholders' meeting. The compensation of independent directors and the additional compensation of directors serving as members of various functional committees shall be determined by the Board of Directors in accordance with industry standards.
 - (2) The performance of the Company's Board of Directors, functional committees and individual directors is evaluated once a year in accordance with the "Regulations for the Performance Evaluation of the Board of Directors and Functional Committees". The proposed director's compensation has been reviewed by the Compensation Committee on January 26, 2022 and approved by the Board of Directors. It was proposed to distribute 1.3% of the Company's profit as the director's compensation, which is in line with industry standards.

7. Proposed Resolution

(1) Proposal : To accept 2021 Business Report and Financial Statements

Proposed by the Board of Directors

Explanation :

1. GUC's 2021 Financial Statements, including the balance sheet, income statement, statement of changes in shareholders' equity and statement of cash flow were audited by independent auditors, Ming-Hui Chen and Su-Li Fang, of Deloitte Taiwan, and a report has been issued.
2. Please refer to Attachment 1 and Attachment 3 for the 2021 Annual Business Report and Financial Statements (including the Independent Auditor's Report).

Voting Results: the number of shares represented by the shareholders present at the time of voting was 111,074,011 and 104,827,210 votes were cast for the proposal, which was 94.37% of the votes represented by the shareholders present.

RESOLVED, that the 2021 Business Report and Financial Statements be and hereby were accepted as submitted.

(2) Proposal : To Accept the Proposal for Distribution of 2021 Profits

Proposed by the Board of Directors

Explanation :

1. The 2021 Earnings Distribution was approved by the Board of Directors and reviewed by the Audit Committee, and the Audit Committee's Review Report has been issued.
2. The Company proposes to distribute NT\$938,083,377 from the 2021 distributable earnings as shareholder dividends, all of which will be paid in cash. (Common stock cash dividends of NT\$7.0 per share). Cash dividends will be distributed in integers of NTD (rounded down to an integer) with fractions of NTD accounted for as other income of the Company.
3. Upon the approval of the General Shareholders' Meeting, it is proposed that the Board of Directors be authorized to resolve the ex-dividend date, and other relevant issues. In the event that the Company needs to cancel the shares or issue new shares due to the Company's repurchase of treasury shares or other reasons, which affects the total number of outstanding shares of the Company, it is proposed that the Chair of the Board be authorized to distribute the total earnings based on the ordinary shares resolved and adjust the shareholders' cash dividend distribution ratio based on the number of actual shares outstanding on the record date for distribution.
4. Please refer to Attachment 4 for the 2021 Earnings Distribution Table.

Voting Results: the number of shares represented by the shareholders present at the time of voting was 111,074,011 and 104,803,205 votes were cast for the proposal, which was 94.35% of the votes represented by the shareholders present.

RESOLVED, that the Proposal for Distribution of 2021 Profits be and hereby was accepted as submitted.

8.Election

Proposal : By-election of two independent directors

Proposed by the Board of Directors

Explanation :

1. In response to the initiative of the "Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies" that the consecutive term of independent directors should not exceed three terms, two independent directors of the Company who have served for more than three terms have resigned as independent directors as of May 19, 2022.
2. In accordance with Article 16 of the Company's Articles of Incorporation, the Board of Directors has resolved that the number of directors for the Company is nine, of which five are independent directors. It is proposed to elect two independent directors through a by-election.
3. In accordance with Article 192-1 of the Company Act and Articles 16 and 16-1 of the Company's Articles of Association, the election of independent directors of the Company adopts the candidate nomination system. Independent directors shall be elected by shareholders from the nomination list. The Company held a Board of

Directors meeting on January 26, 2022. The nomination list for independent directors was approved in the meeting with Jesse Ding and Tsui-Hui Huang as the candidates. For their education, experience, and other relevant information, please refer to Attachment 5 o. The term of the independent directors via by-election is the same as that of the ninth board of directors, starting from May 19, 2022 until May 13, 2023.

The results of the By-election of 2 Independent Directors

Title	Name	Votes Received
Indenpdent Director	Jesse Ding	99,762,582
Indenpdent Director	Huang, Tsui-Hui	98,551,652

9.Other Business and Special Motion

None.

10.Meeting Adjourned: The meeting was adjourned at 10:10 a.m. May 19, 2022 upon a motion duly made and seconded.

F.C. Tseng
Chairman of the Board of Directors

Charles Hung
minutes taker

Attachment 1

Business Report

In 2021, not only the technology industry but also many other sectors were all affected by the COVID-19 pandemic, to varying degrees. Facing cross-industry surges in demand for semiconductor chips around the world in the pandemic era, all industries have been affected by the chip shortages, and the semiconductor supply has therefore become a focus of attention for the world's great powers. Despite some constraints in the supply chain, with the benefit from the accelerated trends in digital transformation and strong demand for chips in the market, Global Unichip Corp. (GUC) still set an eye-catching record in 2021. Net consolidated operating revenue in 2021 was NT\$15.108 billion, for another record high following 2020's record. Consolidated EPS was NT\$10.9, also a record high.

2021 Business Achievements

(1) Business Plan Implementation Results

In 2021, demand for Application Specific Integrated Circuit (ASIC) chips continued to grow at a rapid pace. This was primarily attributed to the continuing increase in demand for ASICs from the world's major technology companies, and the thriving demand for chip independence in China. This, in turn, was because ASICs can strengthen technology companies' control over their products, and reinforce differentiation of end products and services. In addition, the pandemic has disrupted supply chains around the world and put many industrial sectors in difficult production situations. With the addition of chip shortages caused by decreased chip production capacity, the importance of the semiconductor industry has thus been highlighted. The worldwide chip shortage crisis has also prompted major technology companies, which have step by step invested in ASIC design in the past few years, to accelerate their R&D pace. Driven by strong market demand, GUC's revenue from design services and Turnkey revenue both increased in 2021. GUC's overall operational performance for 2021 saw record highs as a result.

In 2021, with respect to the business of design services (NRE), the growth trends in applications such as artificial intelligence (AI), 5G, networking, etc. brought great benefits; in addition to this, demand driven by major technology companies' accelerated investment in ASIC design meant that the annual growth rate in GUC's design service revenue was 2% for 2021, better than forecasts made at the beginning of the year. In regards to the Turnkey business, primarily due to demand growth from AI, BMC, Chromebooks, etc., revenue and NRE sales both hit record highs.

In terms of profit performance, the overall gross profit margin ratio in 2021 increased significantly over the previous year. This was primarily attributed to two favorable factors. One was the increased gross profit margin ratio in the NRE business; the other was the enhanced proportion of advanced packaging products in the Turnkey business. Coupled with effective overhead control, the growth rate of annual net profit was significantly higher than the revenue growth rate in 2021. Not only did 2021 see record high profits, but GUC also achieved the goal of profitable growth for two consecutive years.

GUC's excellent chip design/engineering services and leading IP position effectively shorten customers' time-to-market product timelines, thus helping customers get a head start. In 2021, GUC invested a great deal of R&D resources toward providing design service solutions for advanced processes, as well as advanced packaging technologies and related IP research and development. By doing this, we continued to win the trust of world-class customers. In terms of progress in advanced processes, 16nm and more advanced processes as a proportion of total revenue increased steadily compared over the previous year; the 7nm process, in particular, also increased significantly this year as a proportion of total revenue and increased to 14% of total Turnkey revenue.

The number of new NRE projects in 2021 and the number of projects being taped out this year were both greater than the forecasts made at the beginning of the year. These projects' applications primarily focused on AI, 5G, and networking. Moreover, in response to the market's demand for Advanced Packaging Technology (APT), the GUC R&D team has been actively committed to the development of related niche Ips with close collaboration with important partners. By creating comprehensive solutions that help customers get head starts in the 2.5D/3D advanced packaging field, the GUC R&D team assists them in maintaining market-leading positions.

(2) Operating Revenue and Profitability Analysis

GUC's net consolidated operating revenue in 2021 was NT\$15.108__billion, showing an increase of 11% over the previous year's revenue of NT\$13.569 billion; net profit after tax was NT\$1.46 billion, demonstrating an increase of 72 % over the previous year; and EPS was NT\$ 10.9, for an increase of 72% over the previous year's EPS of NT\$ 6.34 . This was significantly higher than the annual revenue growth rate.

GUC's gross profit margin ratio in 2021 was 34.6%, demonstrating a significant increase

compared to the ratio of 30.0% for the previous year. Such growth was primarily due to the increase of the gross profit margin ratios in the NRE business and the Turnkey business; the operating profit margin was 11.1%, while the margin for the previous year was 7.1%. The net profit margin in 2021 was 9.7%, indicating an increase of 3.4 percentage point compared to the margin of 6.3 % in the previous year.

(3) Overview of Technology Development

With the aim of maintaining a leading technology position, and to ensure stable growth of long-term revenues and profits, GUC maintains our commitment to innovation and our investment in R&D. Advanced processes as a proportion of the company's revenue continues to increase. In 2021, 16/12nm and 7nm processes accounted for 46 % of total revenue, and for 74 % of the NRE business' annual revenue. Moreover, by the end of 2021, our patent portfolio consists of 422 patents, demonstrating the achievements GUC has gained from active investment in R&D, and effectively enhancing our core competitiveness.

Major technical breakthroughs and innovation achievements in 2021 are as follows:

- Combined with TSMC InFO/CoWoS packaging technology, GUC has proposed the next-generation chip interconnection IP "GLink 2.0" in 5nm. The silicon has been verified in 3Q21 and is ready to provide customers with complete multi-chip interconnect solutions. GUC GLink IP receives "The Promising Product" of EE-Awards Asia.
- Combined with TSMC InFO/CoWoS packaging technology, GUC has taped out the next-generation chip interconnection 5nm IP "GLink 2.3" in 4Q21, and silicon verification is expected to be completed in 3Q22.
- GUC completed the tape-out of 5nm and 6nm GLink-3D IP testchip for 3D SoIC in 2Q21.
- GUC has successfully enabled the mass production of HBM2/CoWoS for 4 different customers with their large SoC design. The configuration ranges from 2 to 4 HBM2 memory dies, and the main applications are AI and HPC.
- GUC provides world's 1st 5nm silicon-proven 3.6G HBM2E (PHY & Controller) IP total solution. GUC's HBM2E solution has been adopted by customer SoCs in 5nm and 7nm and expected to be taped out in 1Q22.

- In combination of TSMC latest CoWoS-S and CoWoS-R packaging technology, GUC taped out world's 1st 7nm HBM3 CoWoS platform in 2Q21, including HBM3 7.2G, GLink, and 112G SerDes IP. The solution is expected to be silicon proven in 1Q22.
- GUC successfully developed customer switch ASIC chip for hyperscale datacenter in 7nm, which integrated more than 200 lanes of 112G-LR SerDes, and has been validated by customer in 4Q21.
- GUC successfully developed customer RFIC chip, which is embedded into RF antenna for 5G base station and small cell system, supporting 28GHz and 39GHz mmWave communication , and enabled customer into mass production.
- GUC has successfully enabled customers to adopt 6nm ASIC design platform and assisted customers with production plan.
- Adopting TSMC advanced process solution, GUC has succeeded to integrate multiple customers' AI/HPC SoCs with 2.5D packaging technology for hyperscale data center applications, and had customers into mass production in 2021.
- GUC has collaborated with a 5G leading company on analog front-end (AFE) IP in 12nm, which supports both mmWave and sub-6GHz bands. The design has been silicon proven and adopted by a leading customer. The SoC has been silicon proven and ready for mass production.
- GUC completed 5nm TCAM tape-out in Oct'20, and silicon verification in 4Q21.
- GUC's industry-leading ultra-low-power design solution has been proven to significantly reduce AI SoC chip power consumption for edge computing, successfully enabling customers into mass production.
- Following a hyperscale data center AI chip customer and a renowned consumer electronics chip customer mass productions in 2020, GUC's industry-leading spec-in service has successfully assisted networking customer to complete SoC design and system bring up. The SoC is expected to go into production in 2022.
- GUC early adopted TSMC 3nm technology in 2021, completed v0.9 design flow and verification in 4Q21. Plan to start N3E development, and provide service for customer's product tape-out in 2023.

- GUC's successfully enabled customer's LiDAR SoC tapeout and silicon bring up for autonomous driving in 2021. The SoC is expected to enter mass production in 2024.

Overview of 2022 Business Plan

The development model in which the world's major technology companies accelerate development of exclusive ASIC chips to differentiate themselves from other competitors was very prominent in 2021. In order to effectively overcome the technical hurdles of advanced processes and system-in-a-package (SiP) modules, it is foreseeable that the world's major technology companies will continue to expand their chip design outsourcing. This trend will become a source of growth momentum for chip design service companies in the future. Take AI applications as an example. As AI and high-performance computing (HPC) have become indispensable computing functions in data centers, the GPU solutions that have previously dominated AI computing in data centers are no longer the only solution. The world's major companies have begun to adopt the ASIC design approach on advanced technology, and introduce it into data centers to optimize service performance and cost efficiency. In addition, the importance of SiP modules is also gradually coming to light. The combination of advanced processes and the development of advanced packaging has made 3D ICs and heterogeneous integration one of the most important development directions in the post-Moore's Law era. With the aim of grasping this market trend, and to improve our competitive advantages in chip design services, GUC will continue to invest R&D resources into advanced processes and IPs related to SiP modules. By doing this, we will in turn continue to increase our market share and maintain our leading advantages.

(1) Sales Forecast

Looking ahead to 2022, with continually accelerating momentum toward digital transformation, chip design projects commissioned by major world companies will continue to roll in. Major brand customers also continue to have a strong demand for advanced process technologies. Thus, we expect that business opportunities in the global ASIC market will continue, and that GUC's business growth will also continue. Moreover, advanced processes will continue to expand as a proportion of our sales. Benefitting from division of professions, the position of Taiwan's semiconductor industry will be further enhanced within the global market, and all the supply

chain will benefit. By grasping such opportunities for business growth, GUC will continue to invest in advanced technologies, provide customers with greater added value, keep working with customers in market deployment, and effectively create competitive advantages from differentiation.

(2) Important Production and Marketing Policies

GUC will remain committed to reinforcing the strength of R&D in 2022. In addition to continuing improvements to provide customers with even more excellent design services, through our industry-leading chip design capabilities in advanced processes and our IP deployment in advanced packaging technologies, GUC will have even greater competitiveness in undertaking customer projects. By carefully selecting design service projects with potential for mass production, and focusing more on enhancement of the company's design value, we will keep improving long-term profitability.

Not only do ASICs related to AI and 5G/networking require advanced processes, but many of them also require advanced packaging technologies. In addition to assisting our major partners in continuously promoting advanced processes, GUC also actively invests in the IPs required for advanced processes. The development of such IPs precisely aligns with the needs of customers in the fields of AI and 5G/networking. While we develop new applications related to AI and 5G/networking, stable revenue/profits are still maintained through our existing customers and our long-term collaboration with them. We will keep strengthening existing core customers' stickiness and hold fast to the promise of not competing with customers; these efforts will serve as the cornerstone of the company's long-term business growth.

The company's development strategies and the impacts of the external competitive environment, regulatory environment, and overall future economic environment

The spread of the COVID-19 pandemic has created serious impacts on the global economy and business activities. However, in addition to focusing on product technology development and seeking profitable growth, GUC remain committed to carrying out sound corporate governance, and we actively attach importance to the interests of all stakeholders. Through the operations of the Corporate Social Responsibility Committee, GUC fulfills our corporate social responsibilities and carries out corporate governance, in order to do our part in efforts for society and the

environment. Moreover, GUC has voluntarily compiled our annual Corporate Social Responsibility Report since 2011. By specifically disclosing how the company responds to stakeholders' major concerns on topics such as the economy, environment, society, corporate governance, etc., we effectively enhance the company's information transparency. On the topic of corporate governance implementation, the company has been included in the top 5% of companies listed in the Corporate Governance Evaluation conducted by Taiwan Stock Exchange for seven consecutive years. With respect to substantive measures in corporate social responsibility practice, GUC continues to invest a great deal of R&D resources to improve product energy efficiency; propose improvement plans for energy savings and carbon reductions; upgrade our requirements for the green supply chain; and to improve waste management. We expect to invest more resources in 2022 to improve substantive development in topics of concern, to encourage employees to actively participate and show their enthusiasm to assist the company in fulfilling our corporate social responsibilities, and to thus realize the philosophy of "What we take from society, we give back to society".

Looking ahead to 2022, GUC will keep working with our world-class customers and partners by continuously investing in advanced process technologies, and will focus on the development of key IPs in response to the market environment and competition. We are confident in our mid- and long-term operating goals. Our ongoing innovation and accumulated technological energy will effectively help us achieve the goals of attaining technology leadership and increased profits in key areas, while also grasping critical opportunities for next-stage growth.

Finally, we would like to express our thanks again to all customers, suppliers, shareholders, and the general public for your long-term support and trust in GUC, and to all employees for their commitment to the company's operations. We sincerely ask that you keep working with us to create extraordinary value for our customers, shareholders, employees, and society as a whole.

Finally, we wish you good health, and the best in all things!

Chair: F.C. Tseng Manager: Sean Tai, Daniel Chien Chief Accountant: Blithe Chiang

Attachment 2

Audit Committee's Review Report

The Board of Directors has prepared the Company's 2021 Annual Business Report, Financial Statements and Earnings Distribution Table. Among which, the Financial Statements have been audited by the CPAs of Deloitte Taiwan and the Independent Auditors' Report relating to the Financial Statements has been issued.

The aforementioned Annual Business Report and Earnings Distribution Table have been reviewed and considered to be complied with relevant rules by the Audit Committee of the Company according to Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act. We hereby produce this report for your review.

The above is respectfully submitted to the

2022 Annual General Shareholders' Meeting of Global Unichip Corp.

Audit Committee Convener : Benson Liu

January 26, 2022

Attachment 3

Independent Auditors' Report (Consolidated Financial Statements)

The Board of Directors and Shareholders
Global Unichip Corp.

Opinion

We have audited the accompanying consolidated financial statements of Global Unichip Corp. and its subsidiaries (the “Company”), which comprise the consolidated balance sheets as of December 31, 2021 and 2020, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for the years then ended, and the notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2021. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of inventory

Due to the current rapid changes in technology and the high level of competition in the business environment, the prices of products are fluctuating quickly; consequently, the changes in the net realizable value of inventory could have a material impact on the financial statements. As of December 31, 2021 the carrying amount of inventory was NT\$2,788,572 thousand, which accounted for 19% of the total assets in the consolidated balance sheet. Please refer to Notes 4, 5 and 8 to the consolidated financial statements for the details of the information and accounting policy about inventory. The Company's primary business is rendering of services and producing and selling of products in the semiconductor industry. The rapid technological changes in the semiconductor industry require management to timely estimate possible loss on inventory that is expected to be scrapped or disposed of according to the Company's inventory control and accounting policy and the clients' demands. As uncertainty exists in management's judgment when determining loss on inventory, the valuation of inventory has been identified as a key audit matter.

Our key audit procedures performed in respect of this area included the following:

1. We obtained an understanding of the design of the key controls over the valuation of inventory.
2. We obtained the inventory aging report, and we verified the accuracy and completeness of the report by agreeing the age interval, quantity, and amount to the supporting documents of inbound inventory. We assessed the reasonableness of allowance for inventory loss by recalculating the amount in accordance with the stated valuation policy for the inventory.
3. We performed a retrospective review of past estimates to determine the reasonableness of the past judgments with reference to actual amounts of inventory loss.

Other Matter

We have also audited the parent company only financial statements of Global Unichip Corp. as of and for the years ended December 31, 2021 and 2020 on which we have issued an unmodified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the Audit Committee) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence on the financial information of components constituting the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with statements that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2021, and are therefore the key audit matters. We describe these matters in our auditors'

report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Ming-Hui Chen and Su-Li Fang.

Deloitte & Touche
Taipei, Taiwan

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the independent auditors' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' report and consolidated financial statements shall prevail.

Independent Auditors' Report

(Parent Company Only Financial Statements)

The Board of Directors and Shareholders
Global Unichip Corp.

Opinion

We have audited the accompanying parent company only financial statements of Global Unichip Corp. (the "Company"), which comprise the parent company only balance sheets as of December 31, 2021 and 2020, and the parent company only statements of comprehensive income, statements of changes in equity and statements of cash flows for the years then ended, and the notes to the parent company only financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent company only financial statements for the year ended December 31, 2021. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of inventory

Due to the current rapid changes in technology and the high level of competition in the business environment, the prices of products are fluctuating quickly; consequently, the changes in the net realizable value of inventory could have a material impact on the parent company only financial statements. As of December 31, 2021 the carrying amount of inventory was NT\$2,788,572 thousand, which accounted for 19% of the total assets in the parent company only balance sheet. Please refer to Notes 4, 5 and 8 to the parent company only financial statements for the details of the information and accounting policy about inventory. The Company's primary business is rendering of services and producing and selling of products in the semiconductor industry. The rapid technological changes in the semiconductor industry require management to timely estimate possible loss on inventory that is expected to be scrapped or disposed of according to the Company's inventory control and accounting policy and the clients' demands. As uncertainty exists in management's judgment when determining loss on inventory, the valuation of inventory has been identified as a key audit matter.

Our key audit procedures performed in respect of this area included the following:

1. We obtained an understanding of the design of the key controls over the valuation of inventory.
2. We obtained the inventory aging report, and we verified the accuracy and completeness of the report by agreeing the age interval, quantity, and amount to the supporting documents of inbound inventory. We assessed the reasonableness of allowance for inventory loss by recalculating the amount in accordance with the stated valuation policy for the inventory.
3. We performed a retrospective review of past estimates to determine the reasonableness of the past judgments with reference to actual amounts of inventory loss.

Responsibilities of Management and Those Charged with Governance for the Parent Company Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the Audit Committee) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence on the financial information of components constituting the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with statements that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements for the year ended December 31, 2021, and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Ming-Hui Chen and Su-Li Fang.

Deloitte & Touche
